

PRODUCT DESCRIPTION

Round Trailer 2400 Promo by RIBO is an eye catcher only for its construction. Turn it into a crowd puller by a creative design that suits your products. With that it will attract customers at nearly every site. Benefit from the potential that this trailer has!

The trailer is shaped like a yoghurt cup. Therefore is perfectly serves the purpose of selling frozen yoghurts and smoothies. Other products, e.g. ice cream or soft drinks can be offered just as successfully. You as the seller act on a work space of 2.50 diameters and serve your guests via a sales window that can open up widely. The gas spring supported clap of the window does also help to lock the trailer securely.
