

PRODUCT DESCRIPTION

RIBO's Electro Sales Bike has an electric motor that supports you when riding from one site to another. With this sales vehicle you have access to paths that are not passable for regular sales vehicles and don't work up a sweat when driving up hills. You don't even need to have a special driver's license for motorized two-wheelers to be mobile with RIBO's Electro Sales Bike. Even typical „no drive zones“ that you have to adhere to in a car or on a motorcycle can be entered with this electro bike.

The electro bike has a build-up in which you can transport goods. You got nearly endless possibilities: Start your business as a mobile soup kitchen! Move your hot dog stall from one site to another without problems. Cycle up and down the sea front to offer iced-lollies! So much is feasible. Discover the potential of the Electro Sales Bike!

VERSION

- » transportable in a van (LT, Sprinter, Ducato ...)
- » high-quality powder coating in a RAL colour of your choice
- » back pedal brake, fixable front brake
